Summary

I am enthusiastic software developer with two years experience in backend development at outsource company Progmatic Lab, where I contributed in six projects, but main ones were Juniper, Tungsten Fabric and VK.
Problem solving at the intersection of mathematics and programming is vital to me, I need brain gums to stay motivated.
In my entrepreneurial activity sometimes I had to be a designer and fullstack developer.
I prefer remote work with opportunity to work in the office from time to time.

Employment history

Mar 2020– Feb 2022 Progmatic Lab
Support and development for **Juniper**, **Tungsten Fabric**, **VK**, etc.

Fixed bugs and developed features in different parts of listed above companies’ projects.
Improved CI, deployment scripts and tests, had expirience in some DevOps activities like automatization of OpenVPN server configuration and deployment for one of projects.

Mar 2022– Aug 2022 mainly entrepreneurial activity, by the way I developed one website, including glyphs creation, investigation and extraordinary usage of website constructor’s source code [internet hadn’t any solution for my website’s problem], also fixed PHP backend of another website.

Hard skills

Cloud Providers AWS, Openstack-based providers
Virtualization KVM, VirtualBox
Containerization Docker, Podman
Config management Ansible, Juju
Cloud Computing Openstack, RHOSP
Orchestration k8s, OpenShift
Networks&Security TCP/IP, VPN [OpenVPN server], OpenSSL certs [creating and applying]
Languages sh, bash, Python 2&3, PL/SQL [mainly for PostgreSQL], Go, JS, ANSI C, C++, x86 asm [XORPD lvl], q/k for KDB+

Soft skills

Empathic
Communicative
Creative I feel delight after finding non-trivial solution for a problem.
Able to manage I had to replace project manager periodicaly in some cases, also I have experience working with subordinates in my entrepreneurial activity.
Problem solving Solved 572’nd problem in project Euler, my non-distributed solution calculated the answer in ~100ms.

Education

2017–2020 MIEM HSE [Moscow, Russia]
applied mathematics and computer science

Not about work

I will be glad if one of my prospective colleagues likes climbing, especially indoor bouldering.

Languages

English four years in London
Russian native
